## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to newly added claims 21-34 filed on 3/21/2005 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Objections***

2. Claims 21-28 are objected to because of the following informalities:

Claim 21 (line 4), the character "B" should be changed to --at said distal end; wherein said first frame has a generally C configuration with an upper arm and a lower arm, and said pivot mount is on outer end of said upper arm--.

It is noted that in claim 1 (line 6) of US patent 6,697,118, the character B represents for the feature "at said distal end; wherein said first frame has a generally C configuration with an upper arm and a lower arm, and said pivot mount is on outer end of said upper arm," according to the Examiner's Amendment for the Application Serial No. 09/923,467 mailed on 10/21/2003, now patent US 6,697,118).

Claims 22-28 are objected as being dependent on claim 21.

Appropriate correction is required.

### ***Double Patenting***

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

Art Unit: 2612

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 21-34 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-14 of prior U.S. Patent No. 6,697,118. This is a double patenting rejection.

Application claims 21-34 are verbatim identical to patent claims 1-14, respectively.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
